

Item: ROOTA PLUS AND ROOTA PLUS CANNETÉ

A new version of our well-known foldable Rooter armchair that has been a key point of reference in the context of multifunctional applications. Rooter Plus Cannelé and Rooter Plus have the latest version of this collection with a plus in every aspect, including dimensions, finishes, comfort and the introduction of its innovative seat mechanism, and without losing the features of the standard Rooter model.

This armchair is distinguished by the clean and essential design which makes Rooter Plus Cannelé and Rooter Plus suitable for any environment, from the classical one to the modern one.

Furthermore, the chairs can be aligned, linking them together with a simple ganging clip. This flexibility allows to create any format required in a multifunctional situation in a just few minutes.

TECHNICAL FEATURES

Structure:

Side support with inner structure in round section steel pipe, Ø 15 mm, and rectangular section 50x15 mm, 2 mm thick, all moulded inside F/R foam, density 65 Kg/mc.

Seat and backrest:

Rooter Plus - Rooter Plus Cannelé: seat and backrest with inner structure in round section steel pipe, with elastic bands for bounding and support, all moulded inside F/R foam density 65 Kg/mc. Hinges to fold up the armchairs in polyamide grey color.

MECHANISM

It is possible to fold the armchair without any screws or hardware. A simple manual movement is sufficient to close and store the armchair in a very limited space. This option allows for a more practical and efficient use of the space. The seat can be folded thanks to its transfer movement.

ACCESSORIES

Right handed, anti-panic writing tablet

Caps, casters, short and long tube and a ganging clip in black polypropylene to link the armchairs together and align them along straight or curved lines, with a minimum radius of 7000 mm.

Cart used to deliver 8 folded armchairs

A couple of ganging clips to align the seatings.

TESTING

ROOTA seating has passed the most stringent tests and provides extensive guarantees on the quality of the materials used.

Item: ROOTA - ROOTA CLIO

The original Roota model with the square backrest and its twin Roota Clio with the rounded backrest have been selected for the most important, multifunctional halls worldwide. The elegant and classical design allows Roota to be a product without age and at the same time always contemporary, ready to be placed in any environment.

The secret of the success of Roota, Roota Plus Cannet  and Roota Plus is immediately evident. In a few seconds, and with a simple movement the armchair can be folded, without using any tools and hardware, and it can be stacked in a small space. Roota is the ideal solution for a quick and practical coordination of multifunctional halls.
